dated 2 August 1955, from Project Comptroller

25X1A

1. On 4 August I delivered to [ ] three copies of the Letter Contract referred to in paragraph 1 of the attached reference. I advised him that two of the three should be signed for Westinghouse and returned to us and one unsigned copy temporarily retained in their files. I explained that we would then sign the two copies and would eventually return to them one signed copy in exchange for the one unsigned copy initially to be retained by them. In this way they will have only one signed copy in their files.

2. I am assuming that [ ] will follow up on this matter henceforth.
